RICHARD REMO ALI

PERSONAL PROFILE STATEMENT

I am creative and detail-oriented web designer passionate about crafting user-friendly and visually appealing digital experiences. With a strong understanding of both front-end and back-end development principles, including HTML, CSS, and JavaScript, PHP and MySQL. I excel at translating client needs into functional and engaging websites. I thrive on problem-solving and staying up-to-date with the latest web technologies and design trends to deliver innovative and effective online solutions.

CAREER OBJECTIVES

To secure a challenging and rewarding web design position where I can leverage my creativity and technical skills in HTML, CSS, JavaScript, PHP and MySQL to develop innovative and user-centered websites. I aim to contribute to a dynamic team, continuously expanding my knowledge of emerging web technologies, and ultimately play a key role in creating impactful and accessible online experiences for users.

EDUCATIONAL BACKGROUND

NAMASUBA COLLEGE OF COMMERCE – NAMASUBA

2023 – 2024

Award: Certificate In Computer Science [CCS]

BWEYALE SENIOR SECONDARY SCHOOL – BWEYALE

2017 – 2020

Award: Uganda Certificate Of Education [UCE]

WORK EXPERIENCE

MAY, 2023 – AUGUST, 2024: HALVEK TECHNOLOGIES – LWEZA

JUNIOR WEB DESIGNER & GRAPHIC DESIGNER

- Collaborated with the design team to implement new UI/UX features base on prototypes.
- Participated in code reviews and contributed to improving code quality and best practices.
- Debugged and optimized front-end code to improve website speed and user experience.
- Designed Logos, Business Cards and promotional materials for small business and start-up.
- Edited and retouched images for various marketing campaigns.
- Conducted research on design trends and presented findings to the team.

OCTOBER, 2024 – UPTO DATE: **ELSESOFT LTD – KISUBI**
WEB DESIGNER & GRAPHIC DESIGNER

- Worked closely with web developers to ensure the design vision is accurately implemented and that the website functions as intended.
- Designed intuitive and visually appealing interfaces for websites and applications, considering both aesthetics and usability to ensure a positive user experience. This involves wire framing, prototyping, and user testing.
- Translated visual designs into functional web pages using HTML, CSS, and sometimes basic JavaScript, ensuring responsiveness and cross-browser compatibility.
- Developed and maintained a consistent visual brand across both online and offline platforms, creating logos, color palettes, typography systems, and brand guidelines that are applied to websites, marketing materials, and other visual assets.
- Designed and optimized all visual elements for websites, such as icons, illustrations, banners, and images, ensuring they are web-friendly and contribute to the overall design.
